

# The Three Dragons

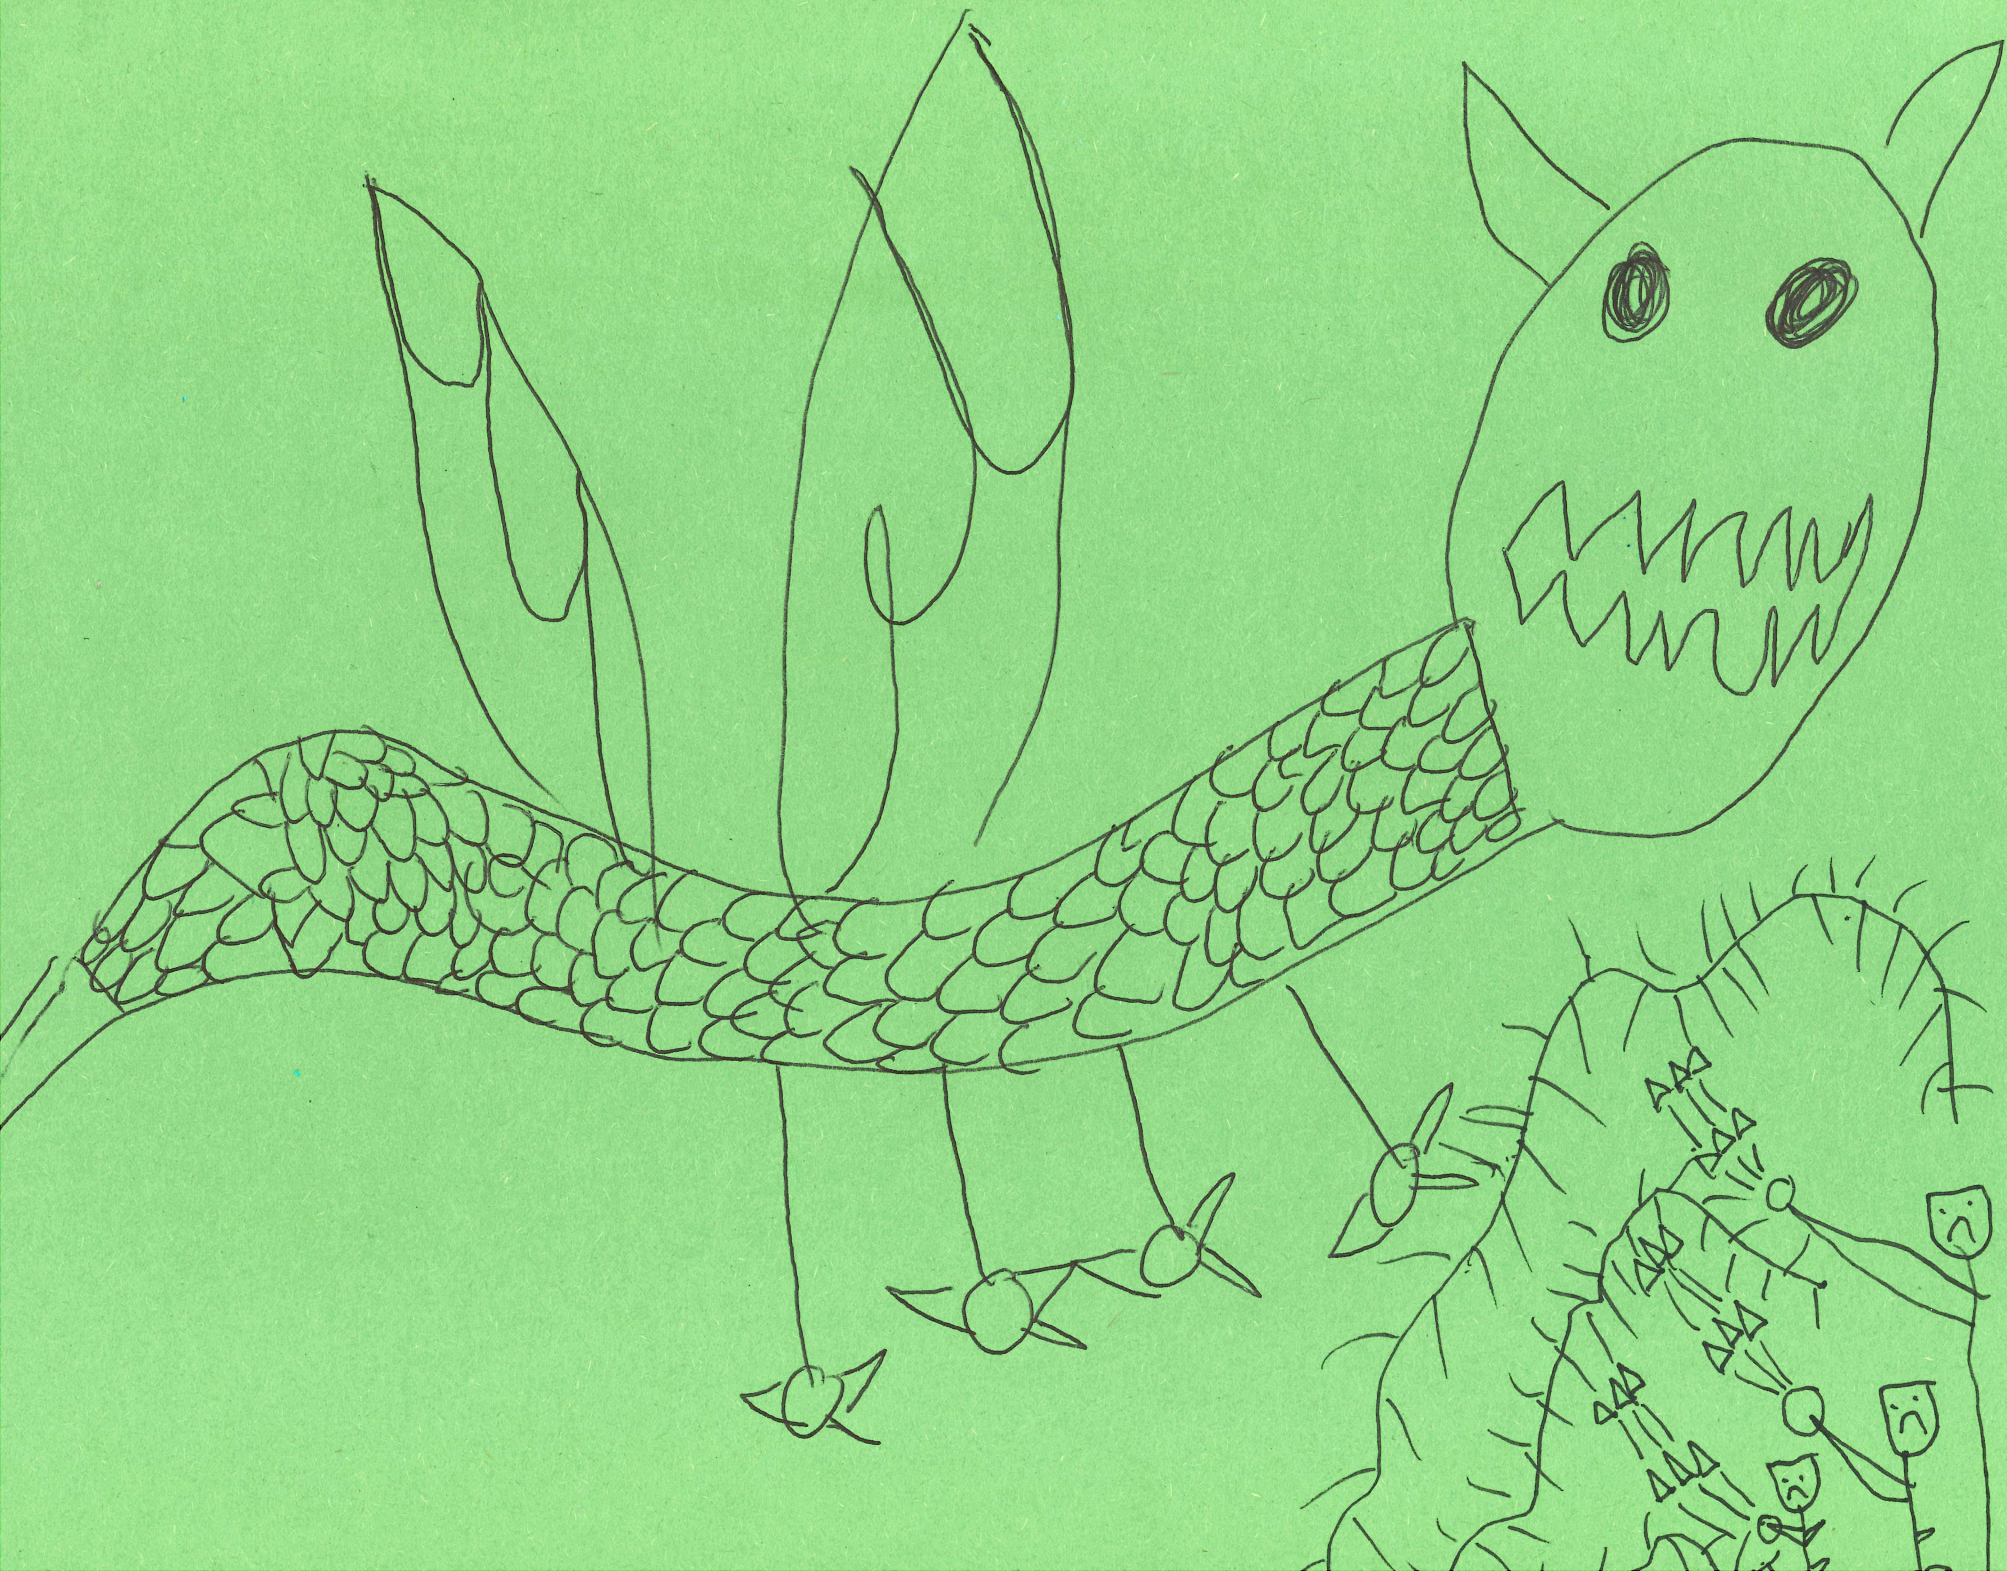

By: Hudson  
Anthis

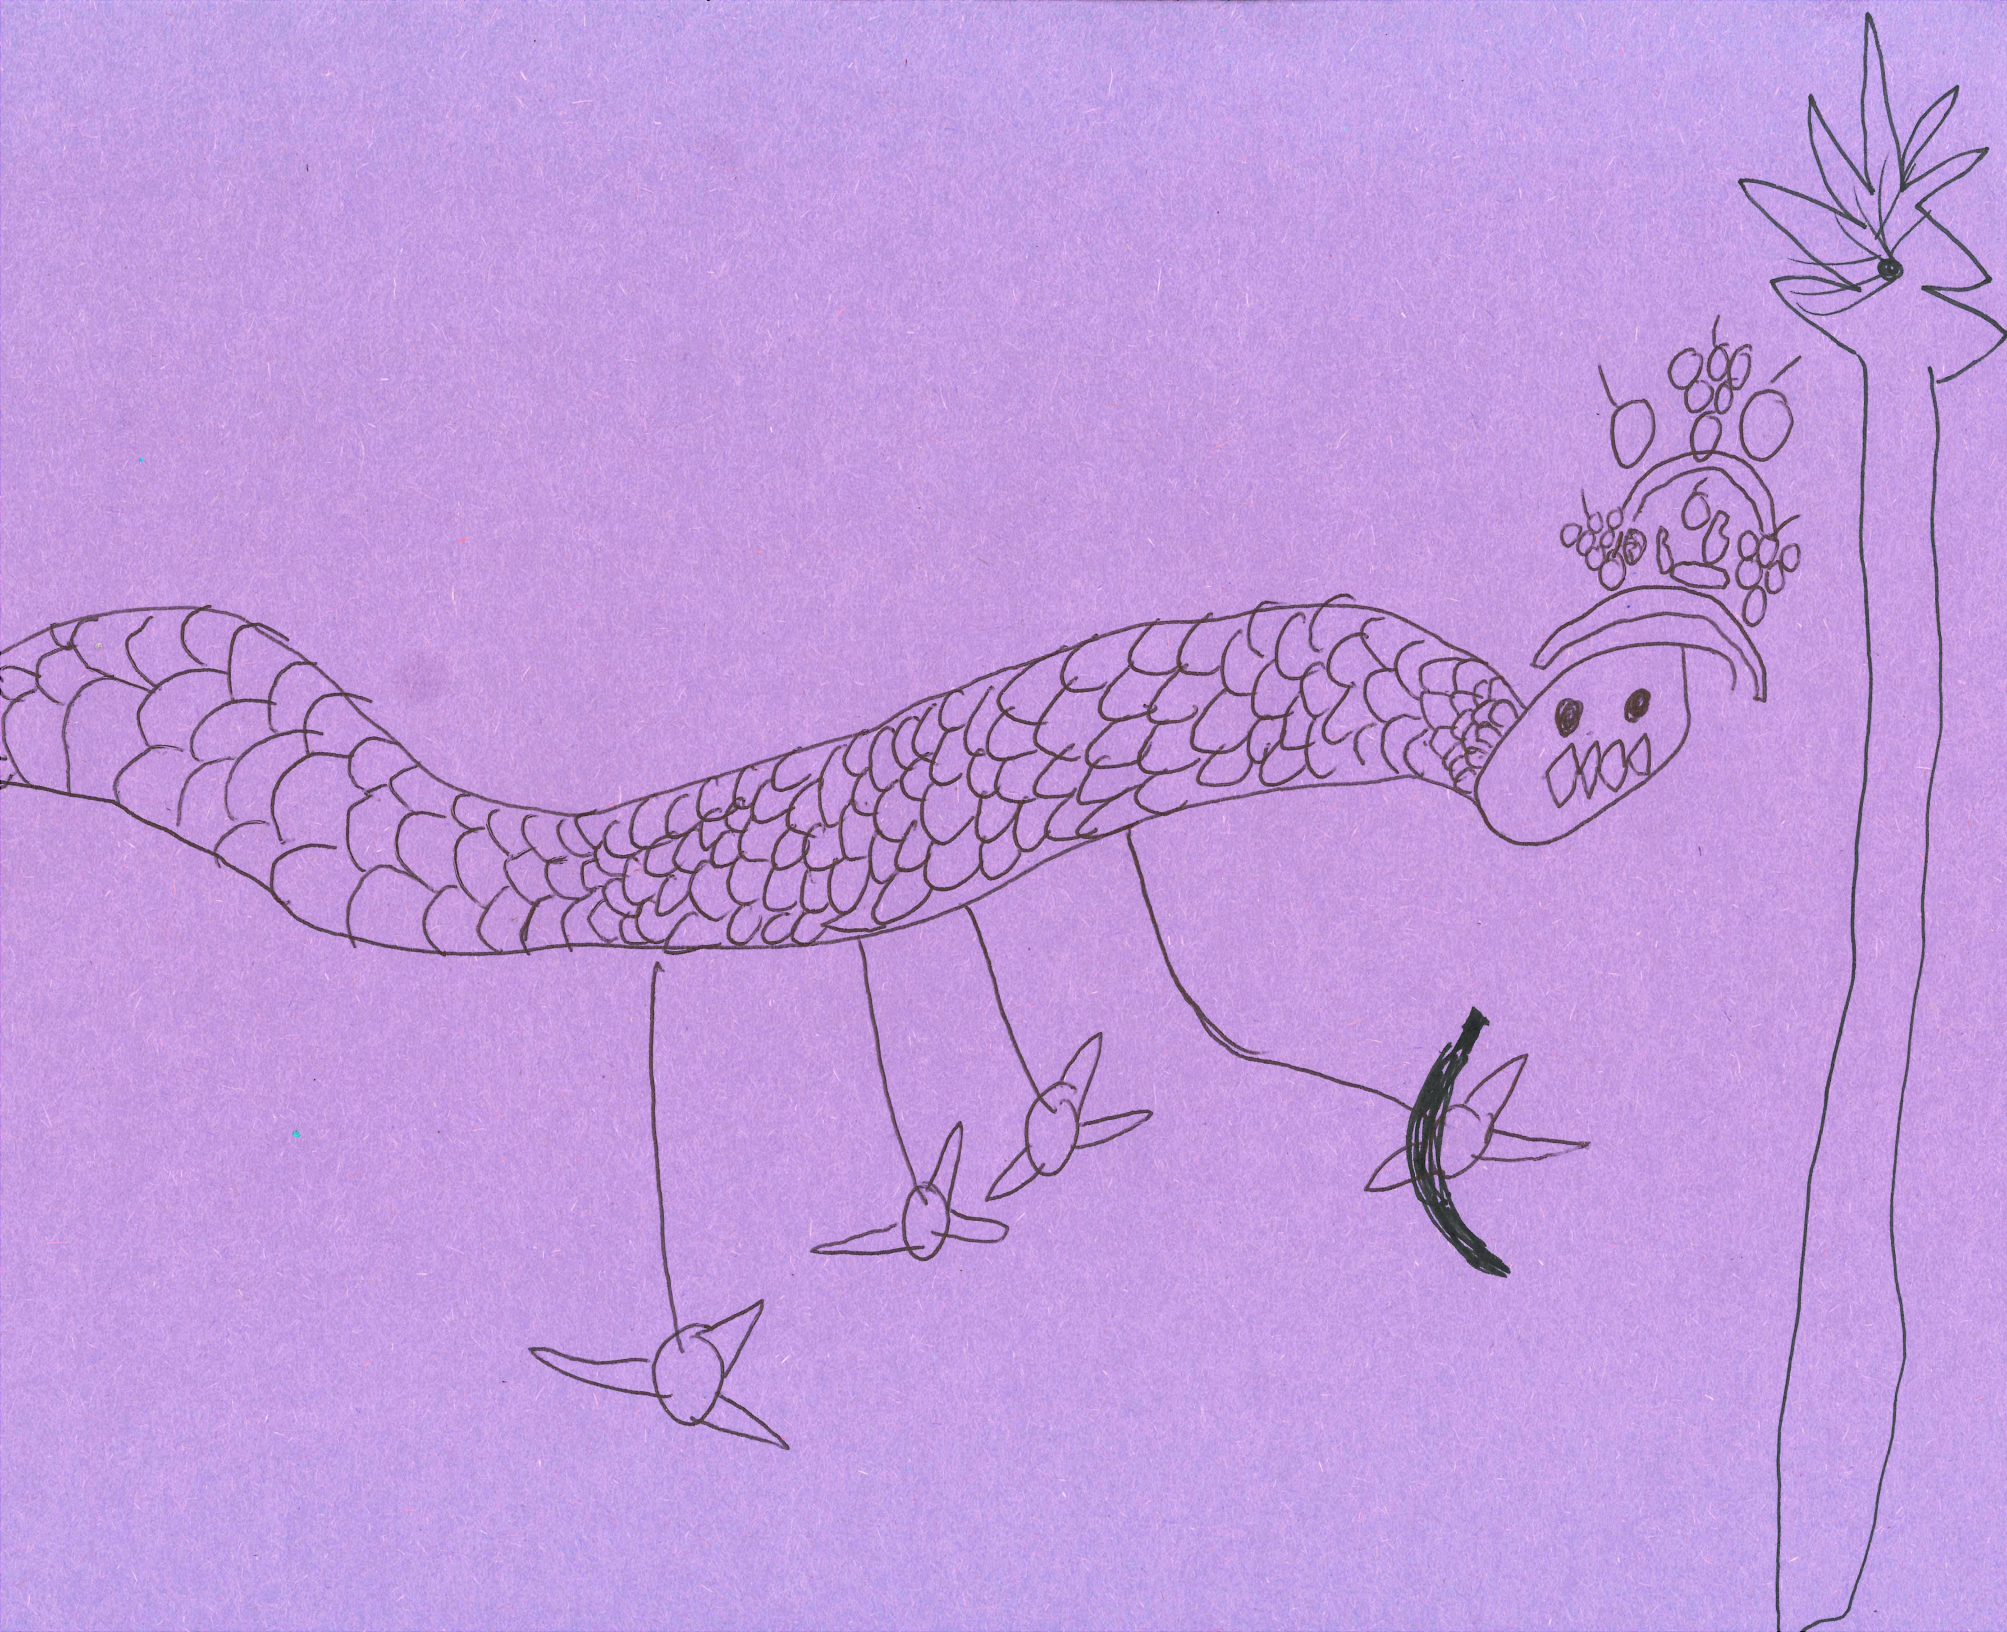

Once upon a time there lived three dragons that lived in a magical forest. The oldest dragon was a plant dragon. The middle dragon was a fruit dragon. The youngest dragon was a rock dragon. The three brothers were playing dragon ball. The ball went into the mean flower queens rose garden. The dragons stepped on some roses to get their ball. The flower queen gets very mad.

She sends her army of roses to attack the dragons with shooting thorns. The plant dragon made vines come out of the ground and wrap up the army.

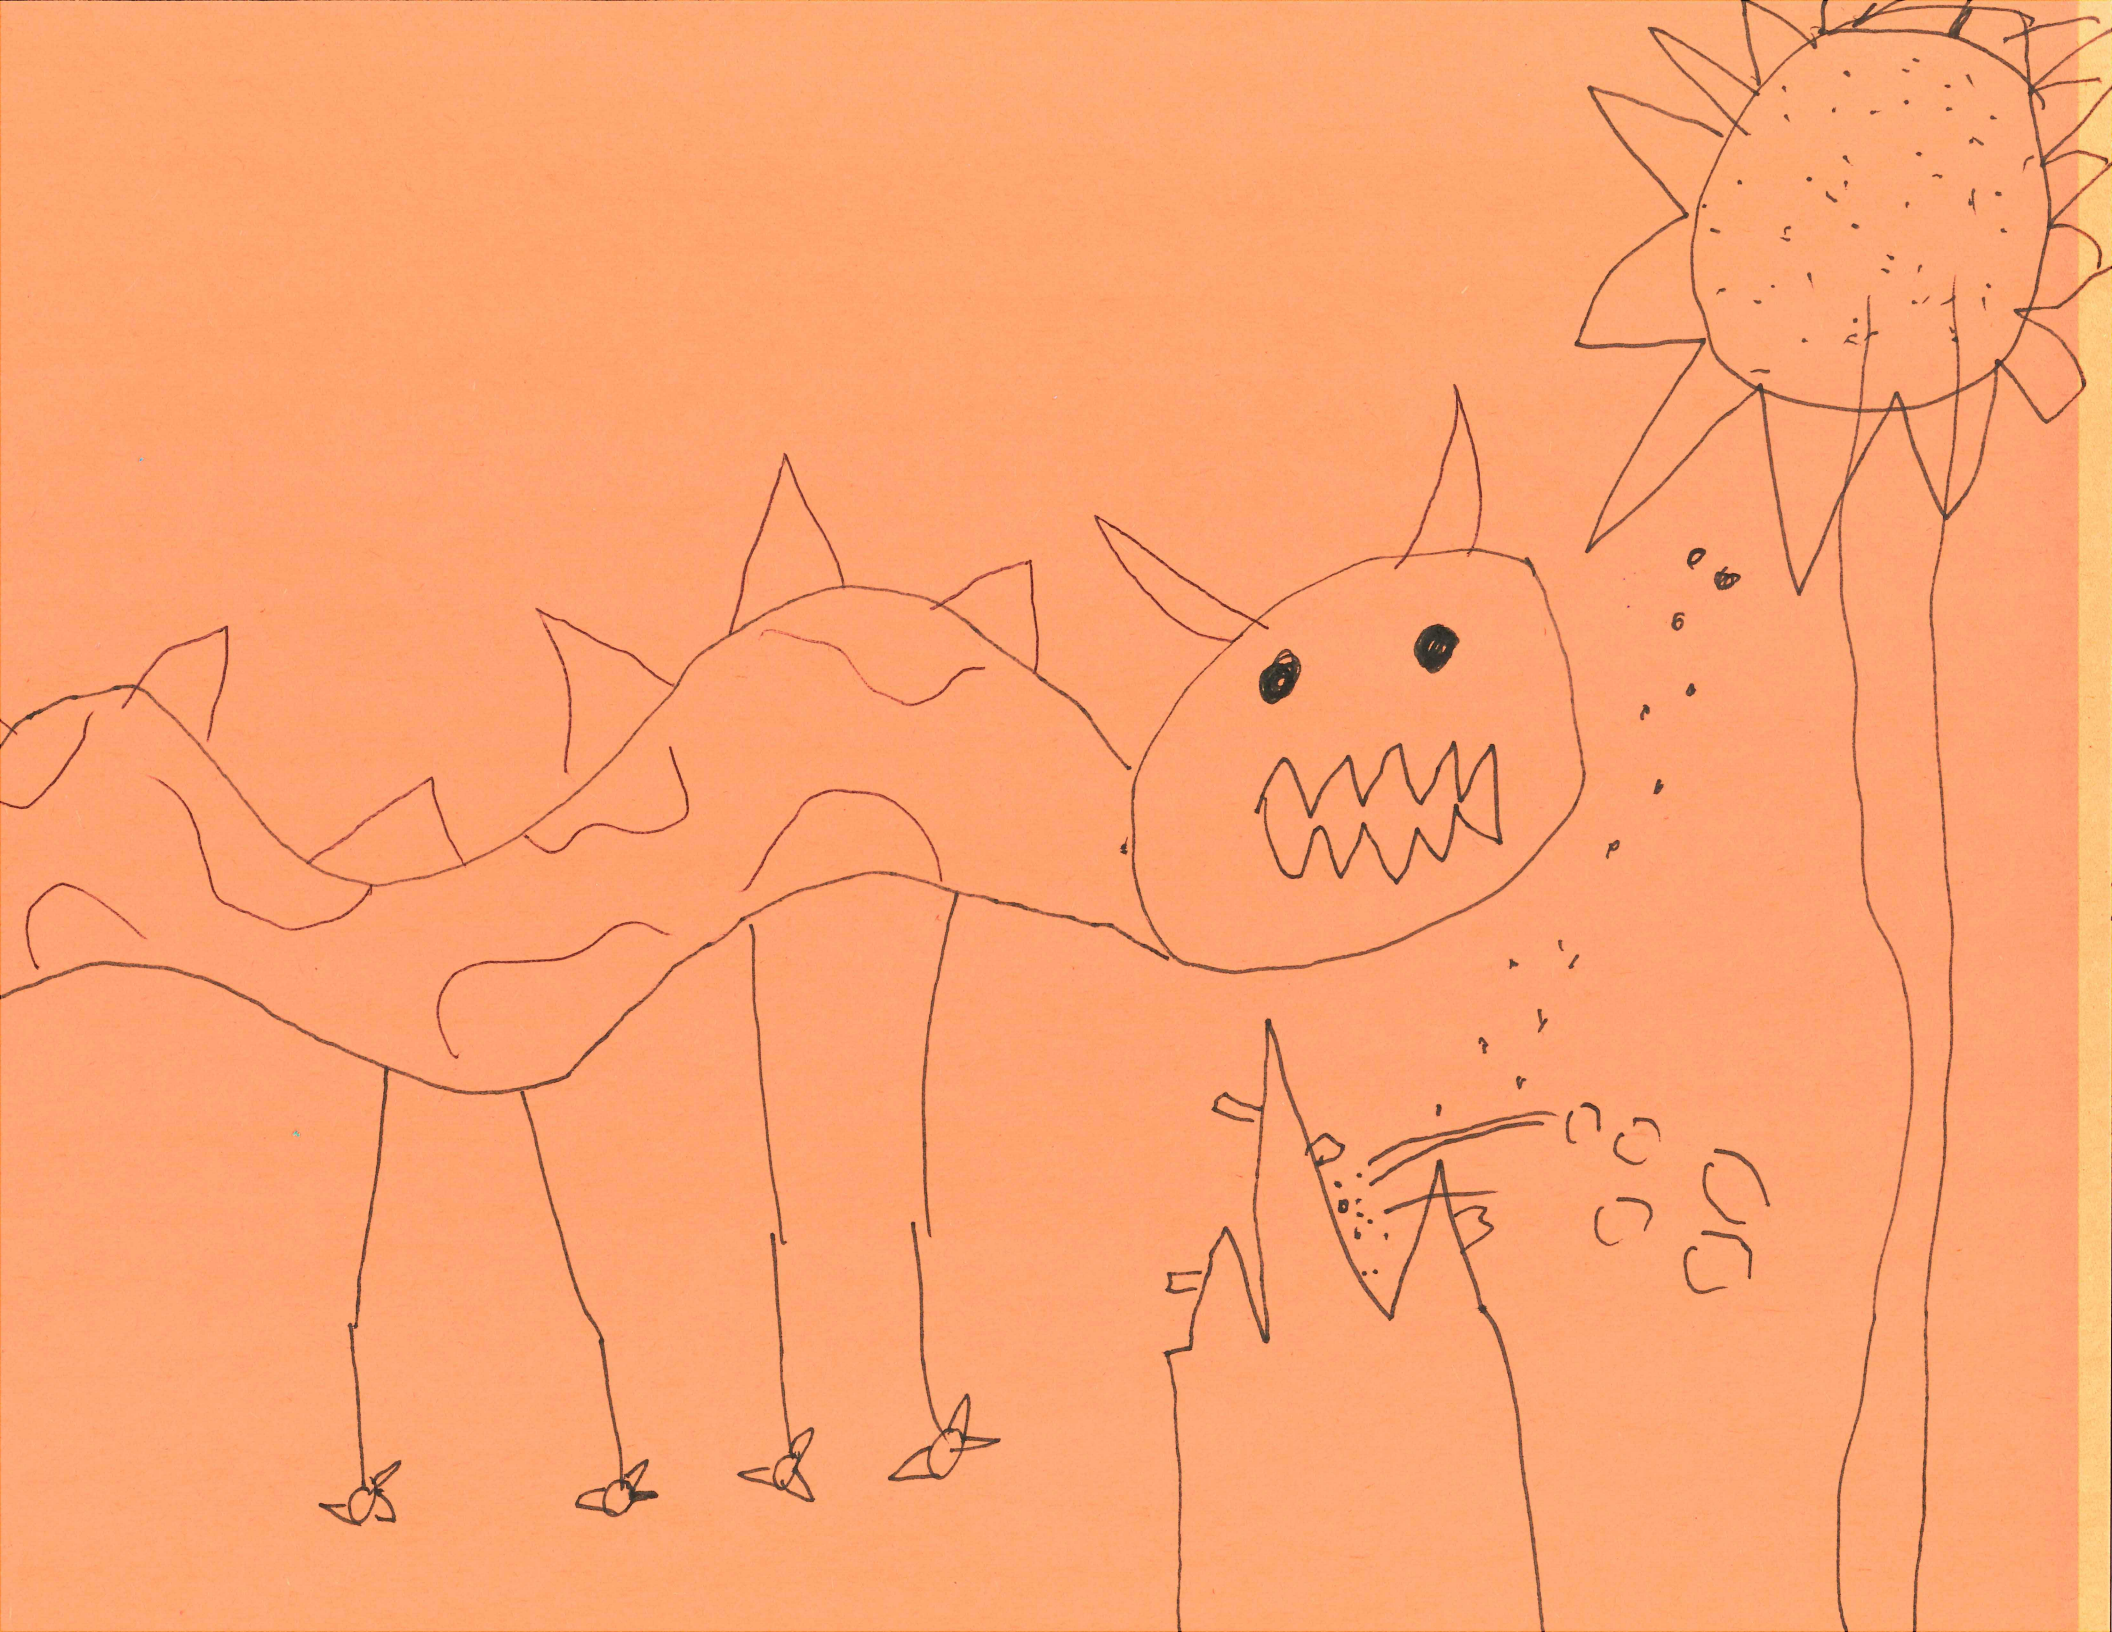

The flower queen grew a huge daffodil to shoot poison at the dragons. The fruit dragon threw a banana like a boomerang at the daffodil and cut it down.

The flower queen grew a giant sunflower to throw its seeds at the dragons. The rock dragon smashed the seeds with a sharp rock.

The dragons asked the queen to stop attacking them.  
We will help you replant the flowers we stepped on.  
The queen was happy and the garden looked beautiful  
again. They all played a game of dragon ball together  
and they all lived happily ever after.
